

**Dear International Partner,**

We are glad to invite you to the

**INTERNATIONAL WEEK**  
**held between May 6-11, 2019**  
**at the University of Economics in Katowice, Poland**

The general theme of the week is:

**Internet Communication Management**

The purpose of the event is to enhance international collaboration with our partners primarily in the field of teaching and learning. It will also be an opportunity for meeting and networking.

The topics proposed are interdisciplinary and suitable for both Polish and international students studying at our university in various programmes at the faculties of Informatics and Communication, Management, Economics, and Finance and Insurance. Hence, the lecture content can be either tailored to the needs of a highly specialized group or suited to a wider audience consisting of students of various specialisations.

The foreign lecturers will be asked to deliver a series of lectures (8 or 16 academic hours) to one student group in their respective field. The content of the lectures does not have to be limited to the specific topics listed below, as long as it reflects the general theme of the week.

The thematic list covers the following topics in two categories:

Management & Marketing	Information Communication Technologies
Internet Communication for Management and Marketing Research; Cross-cultural & Multi-cultural Business Communication; e/m-Learning, e/m-Training and Executive Training; Virtual Organization & Social Networking; Strategy Business Games; Multimedia Design; Content Management & Digital Rights Management; Ethical & Security Issues in Internet; EU & Global Integration in Internet; Data Science & Data Governance; Industry 4.0; Decision Making in Distributed Environment; Management 3.0; ICT Governance; Business Information Systems; SAP Integrated System Web Services Implementation	Internet Communication technologies and tools; Web Analytics & Web Intelligence ; Virtual Reality; 3D modelling; Communication, Collaboration and Information Sharing; Interoperability in e-Business/ e-Government; Business Process Modelling; Ontologies and Semiotics; Business Information System Design; Internet Communication Security; Privacy Control; Cloud Computing; Information Technology Management; Search Engine Marketing ; Information Retrieval; Knowledge Engineering; Geographical Information Systems; Logistics Information Systems; Ambient Technologies; Internet of Things; Smart City & Smart People;

Prospective participants are asked to discuss their topics with the academic coordinator of the International Week:

Prof. Małgorzata Pańkowska

Faculty of Informatics and Communication

Tel: +48 32 257 7292, mobile: +48 601 155 460, fax: +48 32 257 7000

E-mail: [pank@ue.katowice.pl](mailto:pank@ue.katowice.pl)

Please note that lectures and classes need to be delivered in English. However, we leave the choice of teaching methods to the lecturers. Those could be classic lectures, workshops, discussions, projects and/or students' presentations, etc.

We would like to invite the teachers to stay with us for the five days between Monday and Friday. However, this period may be changed, if needed. Besides teaching, the programme will comprise other activities, including the Scientific Seminar, meetings with students and networking as well as a number of social activities.
